It's hard to imagine a more popular winter finale than that of Mass Effect 3.

Mass Effect 3: Collector's Edition launched this week, with *Mass Effect 3: Citadel* to follow on Nov. 4 on the Mac.

Some believe the timed release of the final act could be seen as an attempt by EA to capitalize on the holiday season. Regardless, the recent availability of a demo has fans excited and apparently eager to get their hands on the game proper.

The Mac OS X version of the demo is now available via the Mac App Store for free, though you may need to wait until Thursday afternoon to get it before the retail server crashes and the game goes offline.

What's new in Elden Ring:

Free Fantasy Action RPG Action RPG Tue, 05 Nov 2014 10:13:43 EST New Theocracy Online v1.4.5

LIFE AFTER DEATH.

The core game takes place 40 years after the end of the great war that devastated the world. The firstborn who succeeded in killing their parent is designated as the King. For 12 years, the monarchy will run the world with extreme care, but the situation is not so simple. In the course of the events that occurred, the leader of the revolution has been imprisoned and the church has completely overreached to the point of aspiring to an absolute monarchy. The player finds themselves in the midst of a civil war.

RULE THE WORLD.

In the first life, you can create a living soul which can support your command. Later life, Soul, is what you carry with you and in the pursuit of the future, you continue to bear them.

FIGHT THE ERA.

The era of the game will open with the setting of a fictional city and then will progress. To save the people who are pleading with you at the end of the year, you must fight for the blood of the ground that feels greener, the most ancient history, the legendary city, the philosophies that no longer have anything to do.

Development is ongoing, so things are bound to change.
