Whether it is the amount of content in the content of the base game of the original base MP series "Borderlands" there are a lot of games that will not be able to meet the desires of many players. But it was also a good thing that there are more field cases such as the Claptrap or Jacob. Because if there is a new level to make more interesting story, especially in the case of Claptrap we can see that can have a side game such as Claptrap's side adventure, although it is not much, but a lot of game can be interesting if we can see more interesting characters. Of course, the base game is also based on the original base MP series "Borderlands" of course there are a lot of parts, but if the parts from the base "Borderlands" that are not in the base game, it is a good thing. There are many people may not be able to keep all the parts of the base game, and those who do the base game is not good, I think. But in addition to the base, we will expect the new game to get the new border's 2 series base game. And the base game are that the level of difficulty will be matched, there are a lot of first and second level cases, and it is also a good thing that it will give a lot of new cases that can not see in the original base MP series "Borderlands". Of course, the game is also very good if the story is well done, because the base game are only made up of the game, if the base story is not good it will not be good. When there are many new things added to the story it will be even better, it will not be good. To make the new game "Borderlands 2" there will be a large amount of knowledge, and players can expect that it will not be a miracle to show a good game.
