The result is greater fluidity and responsive controls that enhance the overall gameplay experience for you. However, the technical concept is not the only way FIFA 22 improves the simulation. FIFA Ultimate Team is being overhauled with more than 200 new cards and new gameplay features. New Player Ratings and Performance FIFA Ultimate Team will have new player ratings, meaning you will be able to fine tune the attributes of your players to build the team of your dreams. In addition, other new features include Custom Roster Updates, Manager Screen Improvements and a brand-new Ability System. The Ability System allows you to create new skills for your players by using the virtual controller. The new Ability System gives you the power to develop your own players through intuitive and simple process. BVB 3-Star Ratings and Joltz FIFA Ultimate Team now has a brand-new Player Ratings system that will make it easier to pinpoint what player will best fit your squad. Every player has a level 0 to 99, and your players can be rated in three ways: *Real-life ratings*Popularity Rating*Player Ratings from last time in the EA SPORTS LIVE TEAMMATES, EA SPORTS EURO 2016 Qualifiers. Popularity Rating is a combination of your players' activity on social networks, the popularity of their name and the number of times they've featured in both online and real-life performances. All players have a level 0 to 99 in the first six categories (Lifetime, Popularity, real-life, Skills, Passes, Tackles), and the rest are level 0 to 1 depending on the category. In addition, the new Rating will also include the "Joltz" level, which will allow you to rate players based on how often they score a goal (since for FIFA 21, the Joltz level was only available for defenders). New Player Hints and WAG System FIFA Ultimate Team will have new player hints to help you plan your team. This tool will allow you to pick your players based on your formation and will suggest good options based on the position in which they play. The new system gives you the power to measure the players you're considering, so you can think like the analysts to make the decision that's right for you. The FIFA 22 WAG System will make the new players more interactive and the players will have
