. justtwomoms::: Enjoy your story. I just love the rain, because of the glory that it brings with it. Raking leaves.Q: Inverse of a linear operator Suppose we have a linear transformation $T: X \rightarrow Y$ and $x \in X$ and $Tx = 0$, then there exists a unique $y \in Y$ such that $y = \frac{1}{Tx}Tx$. Is this correct? Why is this true?

A: Here is a simple counterexample: $T: \mathbb{R}^3 \rightarrow \mathbb{R}^3$, $T(x,y,z) = (x, y+z, z)$. If you have an inverse, it must be $T^{-1}(x,y,z) = (x, y-z, z)$ and thus $Tx = x$. Belgium national rugby union team The Belgium national rugby union team has been competing in the annual Rugby World Cup since their first participation in the first edition in 1987 where they finished 4th. Belgium has only failed to reach the Cup quarter-finals twice. The national team also shares the record of being the only nation to play on three different continents having played against Russia in the first ever international game played on a rectangular pitch in November 2008 and against the United States in the 2011 Rugby World Cup Qualifier.
